

Safety Data Sheet for substances and preparations dangerous for supply.

(Chemical Hazard Information and Packaging Regulations 1994)

1. Identification of the substances/preparation and company:

Name of product (as on label): **Chemodol**

Volume: product supplied in 500 ml bottles with a blue flip top dispenser or 5 litre cans with blue top.

Manufacturer: Chemodis B.V

Address: Postbus 9160
Havinghastraat 19
NL-1800 GD Alkmaar
The Netherlands

Information in case of emergency: telephone (00) 31 72 5205083

2. Information on product content:

Chemical characteristics: emulsion on paraffin basis. Manufactured for the purpose of massage medium. External use on the skin only.

Ingredients: paraffinum liquidum, aqua, peg-7 oleate, stearic acid, amino methyl propanol, methylpropylparaben, fragrance, 2-bromo-2-nitropropane-1, 3-diol.

Hazardous substances: none

3. Risks with this product: none

4. First Aid requirements:

If in contact with skin: none

If in contact with eyes: rinse with plenty of water

If swallowed: consult medical doctor and show product information/label. Product can work as a laxative.

5. Fire Hazards/precautions:

Requires foam or powder. Water is not suitable.

6. Required measures if product is spilled.

To protect environment: use absorbent tissue material; product is water soluble, non-biodegradable.

7. Handling and Storage:

Handling of products:

With normal use there are no hazards

With regard storage, fire and explosion hazards:

Avoid high temperatures, store cool and dry. Do not allow to freeze.

8. Measures if in contact with product and personal protection:

Precautions as with all cosmetic products.

P.T.O.

9. Chemical properties:

Physical presentation: a white emulsion

Relevant safety information: soluble in water

10. Stability and reactivity:

No known interactions with other substances.

Dangerous decomposition products: none

11. Toxicological information:

In normal use there are no known toxicological properties.

12. Ecological information:

Reduced biodegradable properties but soluble in water.

13. Instructions for disposal of product:

Small quantities are rinsed with water or absorbed with normal cloth or paper. Larger quantities are to be removed by proper authorities.

14. Information regarding transport:

Not restricted, not a hazardous substance.

15. Legally required information:

Product is CE approved.

16. Other Information:

The information given is based on current knowledge; they do not give a guaranty of product characteristics and do not give any contractual or legal guarantees.
