

Environmental Decontamination Solutions

Minimising the effect of an Outbreak

Outbreaks from infectious viruses can occur at any time, so developing an evolving action plan to combat the spread is now more important than ever.

With people being in such close proximity to one another, infections spread very quickly.

This causes distress and hinders staff performance which will have monetary implications to your business.

This is where Delivered Health Solutions (DHS) will support you and your staff.

DHS's Decontamination Services use only high-quality products, innovative technology and have been accredited by Safer Space.

Safer Space is the UK Cleaning Sector's premier certification for contractors, setting and monitoring the highest standards for cleaning and hygiene in business environments.

We are proud to be accredited by

Our Decontamination Services

Over the last 8 years, we have helped organisations create their individual Decontamination Action Plans and provided resources and solutions to quickly stop the spread of infection.

Helping our customers get back up and running after an outbreak, quickly and safely is our core focus to reduce the overall impact to your business.

Using patented technology, our professionally trained teams have the experience to thoroughly clean and decontaminate all affected areas. This will provide clinically safe conditions which will last up to 30 days after the decontamination.

Our solutions are not sector specific and have been successfully used in a variety of sectors including:

**Care Homes | Hospitals | Ambulances
Laboratories | Hotels | Offices | Kitchens**

Our processes go beyond the strict CQC and NHS guidelines and deliver the highest level of environmental decontamination while complying with BHTA and MHRA national specifications.

Take the DHS Challenge

Part of the Decontamination action plan highlights a range of products that will enable businesses to manage small outbreaks as and when they happen.

Using our exclusive range of decontamination solutions, we empower businesses to take control and reduce the downtime of their staff.

Full training is given by the DHS team, which will ensure your staff maximises the opportunity to eradicate small outbreaks.

“Prevention is better than the cure”, so part of the action plan is to take the DHS Challenge: **‘How Clean is your Clean?’**

Call us today on **0161 848 4000** to start preparing your Decontamination action plan and to find out more about the DHS Challenge...
