## 12:270

Solution Tank: 12 litres  
Recovery Tank: 12 litres  
Vacuum Motor: 1000W 2 Stage x 1  
2200mm H2O  
50L/sec (max)  
Pump: By-pass piston type

Cleaning Width: 270mm  
Number of Jets: Three (015)  
Cable Length: 10 metres  
Hose Length: 2.5 metres

Material: Expanded polyethylene  
Machine Weight: 21kg  
Machine Size: 280 x 780 x 900mm  
Performance: 120m<sup>2</sup>/h

## CARPET EXTRACTION

# 12:270 (Previous Sharon Brush)

- **For carpet & hard floors**
- **Self-contained, injection-extraction machine with built-in power brush for small areas of carpet**
- **Easy to use, simply pull backwards to clean carpets**
- **Height adjustable brushes enables deeper cleaning Use with or without chemicals**
- **Chemical dosing will be in accordance with the chemicals being used**

The 12:270 is a self-contained extractor machine with built-in power brush and allows for deeper carpet extraction.

It is suitable for carpets, rugs, mats and hard floors and removes dirt situated deep down in the fibres.

By loosening and removing the deep seeded dirt, germs are being eliminated, improving the environment for your residents and increasing the life of your carpets and rugs.

The 12:270 was specifically designed to reach small areas with ease and simply switch between surfaces.

## Ecolux Neo

Voltage: 220-240V / 50Hz

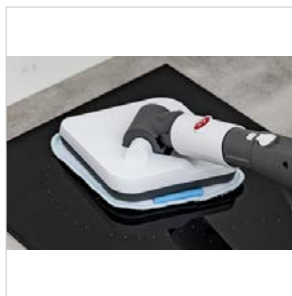

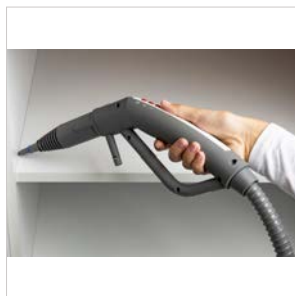

Power: 2200w

Pressure: 5 bar

Main Unit:

Weight: 5.4 kg

Dimensions: 420 x 300 x 275 mm

## DRY STEAM SYSTEM

# ECOLUX NEO

- **Unique hybrid refill system**
- **Light-weight & compact design**
- **Practical nozzles & brushes for different environments**
- **Environmentally friendly cleaning without chemicals**

The Ecolux Neo cleans hygienically and ecologically without the addition of chemical detergents

Thanks to its modern design, the Ecolux Neo is light, robust and compact at the same time. The simple application allows fast and thorough cleaning in the entire household.

The innovative refill system allows the use of the machine as long as necessary for a hygienic clean.

With the practical brushes, nozzles and microfibre clothes, even heavy dirt can easily be removed.

## SV8

Water Tank:	5 litres
Vacuum Tank:	12 litres
Boiler Tank:	3.3 litres
Pressure:	8 bar pressure
Vacuum Motor:	850w
Boiler:	3000w
Machine Weight:	30kg
Machine Size:	820 x 800 x 400mm

## STEAM CLEANER

# SV8

- **Stainless steel construction**
- **Continuous fill boiler (refill at any time during operation)**
- **Integral vacuum system**
- **Non-marking castors**

The SV8 steam cleaner offers high-power steam cleaning. With temperatures up to 185°C, it penetrates the surface to sanitise the environment.

Equipped with a powerful integrated vacuum system, the SV8 is the perfect choice for medium to heavy soiled areas.

With a robust stainless steel construction, the SV8 is a great choice for health care and commercial environments.

## CleanWorks Moritz

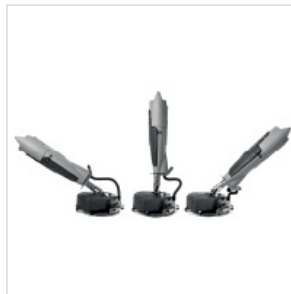

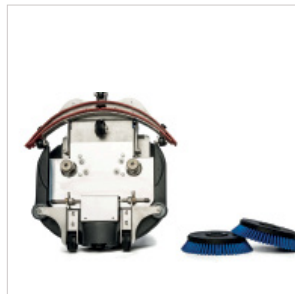

Application: Indoor, hard surfaces  
Running Time: 1 hour  
Battery Capacity: 13 (Lithium) Ah

Cleaning Width: 410 mm

Performance: 38 m<sup>2</sup>/h

Brush/Pad Size: 2 x 21cm

Clean Water Tank: 3 l  
Recovery Water Tank: 5 l

## SCRUBBER DRYERS

# CleanWorks Moritz

- **Easy to transport**
- **Clean hard-to-reach areas**
- **Designed for small spaces**
- **Cleans small confined spaces**
- **Light-weight design**
- **Collapsible tie bar**
- **Easy access to recovery tank**
- **Easy-to-read symbols**
- **“Eco” function**

The CleanWorks Moritz is a light-weight, professional cleaning machine designed to thoroughly clean areas previously done by hand, ensuring a better cleaning result and saved time.

Due to its smaller and space saving size, it can be used quickly in isolated areas and reach all corners and hard-to-reach areas.

The CleanWorks Moritz features a collapsible tie bar making the machine easier to transport and store. Its compact design offers flexibility during cleaning routines and offers a good view of the area.

## Uniprof 340

Rotation: 650rpm

Cleaning Width: 340mm

Machine Weight: 23.5kg

Clean Water Tank: 3 l

Recovery Water Tank: 2 l

Noise Level: 69db

## SCRUBBER DRYERS

# Uniprof 340

- **Application on all surfaces: carpet, hard floor, linoleum among others**
- **Counter rotating brush**
- **Robust construction**
- **User-friendly secure usage**
- **Removable tank**

The Uniprof 340 is the perfect solution for professional cleaning on all flooring. It increases dirt pick up and reduces the drying time of your flooring by 20%.

Using its two counter-rotating brush rollers, dirt is quickly loosened and removed. Dirty water is discharged in a separate drum, leaving the floor deeply cleaned.

The robust casing of the Uniprof 340 guarantees long life, while the motor is audibly quieter than other comparable products on the market.

The brush pressure can be easily customised to adjust to different ground types.
